E-LEARNING

Life is learning continuously

Making learning work for you with distance learning

We know that trying to get back into learning and fit study around busy lives can be hard. Distance learning offers you a way to take charge, studying at a pace and time that suits you without the need to attend specific classes.

Our distance learning courses offer free* accredited training letting you try something new, specialise or take your skills further.

Once enrolled you will be provided with a resource pack which will guide you through your studies and online assessment through our simple system demonstrated at your induction. This doesn't mean you have to go it alone. You will be allocated a specialist tutor and you can drop in and ask for help at digital support sessions.

Learning programmes are available in a wide range of employment areas as introductory and specialist learning to support career progress and development.
